<b>9:15pm</b> <b>Cars</b>	Lightning McQueen, a hotshot rookie race car driven to succeed, discovers that life is about the journey, not the finish line, when he finds himself unexpectedly detoured in the sleepy Route 66 town of Radiator Springs. On route across the country to the big Piston Cup Championship in California to compete against two seasoned pros, McQueen gets to know the town's offbeat characters--including Sally, a snazzy 2002 Porsche, Doc Hudson, a 1951 Hudson Hornet with a mysterious past, and Mater, a rusty but trusty tow truck, who help him realize that there are more important things than trophies, fame and sponsorship.
<b>11:25pm</b> <b>Goal!</b> <b>The Dream Begins</b>	How far would you go to live your dreams? When Santiago Munez is given the chance of a lifetime, he must leave his family, his life in Los Angeles and everything that he knows to travel halfway around the globe to England and into a completely foreign world--the exciting, fast-paced and glamorous world of international soccer. As an underprivileged Mexican-American immigrant growing up in the poor section of Los Angeles, Santiago seemed destined to follow his father's path in life: laboring at menial jobs to earn just enough money to support his family. Naturally gifted, his amazing talent on the soccer field was wasted in recreation league games while he could only dream of playing on the world stage of professional soccer. But when a British scout discovers his talent and gets him a tryout with one of England's premier soccer clubs, Newcastle United, Santiago must choose between his father's fate and his own destiny. Now alone in a world where soccer is a religion and players are gods, this underdog must prove that he's got the talent and determination to make it amongst the best in the world.
